

## New Type Fuji Electric Refrigerators

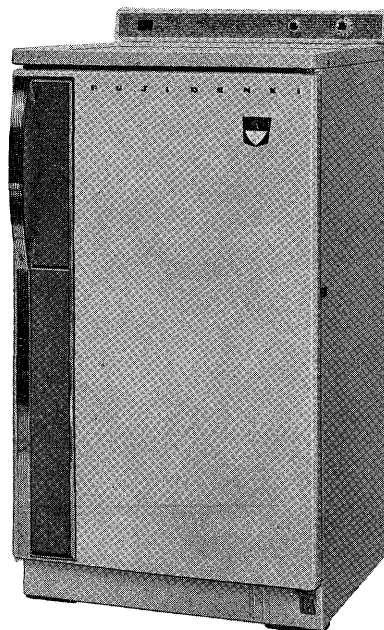

Here we offer you new Fuji Electric Refrigerators, R 802 D, R 1005 and R 1005 D. These new refrigerators are designed for your easiest use by improving conventional refrigerators. Sensible design, ideal function and convenient construction....pride of any kitchen....you will get full satisfaction from these new models.

### 1. Features of R802

- 1) Top surface is designed to be used as a table. So the refrigerator top offers very convenient cooking table or dresser. Materials used for the top surface is of excellent durability, heat-proof, humidity-proof and water-proof. You can make full use of the top table.
  - 2) Inside temperature control dial is equipped on the outside of the refrigerator. You can adjust inside temperature without opening the door. So, there is no fear of temperature rise caused by door opening. It's economical too.
  - 3) You can install the unit flush to the wall.... because of ventilation holes at the back of the table, there are no harmful influence to its operating function. In such installation you can save much of space and what's more goods on the table are prevented from dropping behind the refrigerator.
  - 4) Evaporator is made of beautiful and high pure aluminum plate with oxalic acid alumite treatment, so there is no fear of its corrosion. It's cooling ability is great excellent with its excellence in heat conductivity.
  - 5) You can lock the refrigerator door by the provided key....very convenient for the storage of the important provisions.
  - 6) Open the door....then the interior lamp automatically lightens the every corner of the inside for the convenient taking in and out of the storage.
  - 7) At the front feet, adjusting screw is provided....you can make stable installation of the refrigerator at any place you desire. Earthing is also easily done....assures safe usage.
- 1) At the left corner of the top table, a receiving plug is equipped, you can use the electric juicer, toaster and other electric appliance there.
  - 2) On the door, inside temperature indicator is equipped which shows the ideal inside temperature for each season. You can see at glance whether or not the inside temperature is adequate for the food storage.
  - 3) Inside cabinet is finished with the superior white porcelain, there is no fear of rust and corrosion. The stain caused by the food and its juice can be cleaned off, no dirty stain remains. Also the odor of the food never remain for a long time.
  - 4) R 1005 D is equipped with an automatic defrosting. By a light push of the button, defrosting device chases frost quickly and completely. At the moment of defrosting finish, refrigerator starts cooling operation automatically by which efficient refrigeration is done. Besides the above, defrosting of R 1005 is also done by setting the temperature controller dial to the mark "Defrost" but in this case defrosting is done slowly and naturally.

### 2. Features of R1005 and R1005D

R 1005 and R 1005 D have all features of R 802 D plus another following features.

Outer view of R1005D

- 5) Red defrosting mark at the evaporator tells you the time when defrosting is necessary. You can see the defrosting time at a glance which enables quick and efficient cooling.
- 6) Control box for automatic defrosting device, temperature control dial and slide system receiving plug is on the backward on the table. All these operations can be controlled from this concentrated control box for the convenient and easy use.
- 7) When the door is opened, the door is designed to open up to 90°, that is, until the door surface become flush with the side panel of

the refrigerator. By this flush set door, you can install the refrigerator, both its sides flush to the wall or to the furniture etc. It's a truly space-saver refrigerator.

- 8) Refrigerator has a convenient sliding shelf on the upper part and three removable shelves adjustable for the size of the storage at the lower part. Further, the door has the butter and cheese keeper, removable egg racks and a bottle shelf with front cover able to slant for convenient taking in and out of the bottles.

## New Type Fuji Denki Stereo Phonograph, Model STS511

We are extremely proud to present the new stereo phonograph STS 511....our answer to your requests for adding stereo phonograph in Fuji Denki acoustic line.

### SPECIAL FEATURE

#### 1. Cabinet (BX511)

1) Beautiful cabinet with wings as illustrated  
Hinged wings on the both side panels offer interesting variety in the spread of sound. You can adjust the degree of the wing spread to suit your room size or shape.

2) Cabinet top offers wonderful ornaments' shelf

No mechanism is equipped on the upper part of the console cabinet, so you can use the top surface as the shelf for ornaments.

3) Two way speaker system

Each of two speaker systems includes an 8" (woofer) and a 5¼" (tweeter)....four speakers in all....reproduces full audio spectrum. What's more 5¼" speaker is fixed on the side to get the soft high tone by reflections.

4) Rich stereo sound

You can enjoy full and rich stereo sound to suit any room size and shape. Room-filling stereo sound ideal for party, ball etc. can also be enjoyed.

5) Loudness volume control

For sound volume control, as the loudness control system is adopted, even in a small sound volume, you can listen considerable degree of sound spread. So, its very convenient for you to enjoy the mid-night broadcasts even in a small room.

#### 2. Player (PL511)

1) Pick-up is of plug-in type. A plug-in cartridge mounting head permits easy stereo cartridge assembly.

Converting a monophonic system to stereo is done by plug-in cartridge assembly. You can enjoy sparkling performance in stereo or mono operation at once.

2) Turnover cartridge for monophonic LP or SP record and plug-in cartridge for stereophonic record. For playing LP, SP and stereo, different special stylus is used respectively by which suitable stylus pressure is given and results in stable operation in stereo or mono performance....no sound distortion and no damage of record caused by unnatural stylus pressure.

3) 4-pole, ham shielded motor is used, free from electric trouble caused by ham.

4) Concerning characteristics of uneven rotation and of vibration, this STS 511 has the highest standard for 8" turntable.

5) Interlocking system of on-off switch, speed change-over switch and arm-rest switch makes the operation safe and easy for your convenient use.
